

New Seerey-Lester Wilderness Workshop At Triple "D"

August 24-27, 2018, with the extra day Aug 28, 2018

Charge of the Night Brigade
36x60
using Triple D's Tundra Wolves

Once again we will be teaching at our FAVORITE location for a Wilderness Workshop - Triple "D"! This is the only class where you will be able to photograph and sketch amazing wildlife in a natural environment, from just a few feet away. Each morning you will go into the field and have 2-3 species - your choice of wolves, mountain lion, Amur leopard, Siberian tiger, fox, bobcat, bear, otter, lynx just to name a few.

In the afternoons, John will teach you how to paint the exciting animals you just saw. He will demonstrate all the techniques you want to learn, how to paint grass, moving water, snow, backgrounds, composition and use of light and of course one of the species at Triple "D". It doesn't get any better than this!! Suzie will cover art sales and marketing, and John will critique your work. Where else can you have so much fun and learn at the same time?

The workshop is four days, and you will have an optional fifth day to photograph additional animals. We start every morning going on location to sketch and photograph in the early morning light. In August we will have wonderful locations for sketching the leopard, or mountain lion on a rock outcropping, and a tiger in the water. Incredible!! It might be a pack of wolves in a pond setting with reflections, the bear, bobcat and fox. Each season the animals have different coats to suit the time of year and environment. This is our favorite place to teach.

Twilight Lookout

Take your paintings to the next level.

These are just a few of the paintings that John has created from the animals at Triple "D" Game Farm. John says: "This is probably the best possible experience for a painter of wildlife. Definitely not one to be missed." Suzie agrees and adds: "I love going to Triple "D", the animals are amazing and the staff are so great to work with!"

- You will watch John as he demonstrates his various techniques using oil and acrylic, each day.
- All you need is a sketchbook.
- John will cover such things as composition, use of light, values, perspective, as well as painting animals, fur, grass snow, water, just to name a few things.
- You will be enthralled with what Suzie has to say about the business aspects of art, from photographing your paintings to consignment agreements and copyright law.
- Bring three images of your paintings, or the actual paintings for critique. They can be new paintings you are having trouble with, or older paintings you feel need to improvement.
- This is a great learning experience for everyone. It is a fun class with lots of surprises.

This class will be limited in size, so sign up now for the only place you will have astonishing wildlife and art instruction at the same time. The class is only, \$1350.00. Please contact Glenda at Triple "D" to sign up now!
